WOMEN'S GLOSSARY

GORE-TEX*

Garments engineered with GORE-TEX® product technology are durably waterproof and windproof combined with optimized breathability. Enduring products that maximize wearers' protection and comfort. Gore invests heavily in field testing to understand end user needs which allows Gore to provide the GORE-TEX® GUARANTEED TO KEEP YOU DRY™

FACE TECH

"One less thing to remember" The Face Tech™ design got a complete overhaul, featuring a more streamlined interface connecting the jacket and the facemask, and its fit on your face. It is removable, washable, and now includes a sliding fast clip plus a hidden stash pocket for when the mask is not in use.

ZIP TECH

Whether waist deep in the backcountry or trying to one-up yourself in the park, nothing lowers motivation faster than snow jammed down your pants and up the back of your jacket. Volcom has officially patented Zip Tech®, our originally designed and heavily imitated jacket-to-pant interface that allows you to zip the powder skirt of virtually any Volcom jacket to any Volcom pant, keeping snow out and heat in with no restriction of movement. Falling has never been more enjoyable.

RECCO® ADVANCED RESCUE TECHNOLOGY

RECCO[®] is an avalanche rescue system utilized worldwide to rapidly locate avalanche burials. It is not a substitute for a transceiver, but does increase the chance of being found in time.

YKK YKK® AQUAGUARD® ZIPPER

YKK® AquaGuard® VISLON® Zipper is a high performance water repellent zipper which enhances the style, function, and performance of your high quality garment. What we find so exciting about this new zipper is that you get a zipper that is water repellent and able to smoothly zip open and shut.

YKK YKK® METALUXE® ZIPPER

METALUXE® is a VISLON® zipper with a metallic look. Shiny and slim elements bring a luxury look just like metal zippers, but since plastic materials are used, it's much lighter. It also is more comfortable to wear in colder weather as metal teeth usually scrape/hurt cold hands.
