MEN'S GLOSSARY

GORE-TEX®

Garments engineered with GORE-TEX® product technology are durably waterproof and windproof combined with optimized breathability. Enduring products that maximize wearers' protection and comfort. Gore invests heavily in field testing to understand end user needs which allows Gore to provide GORE-TEX® GUARANTEED TO KEEP YOU DRY™

FACE TECH™

"One less thing to remember"

The Face Tech™ design got a complete overhaul, featuring a more streamlined interface connecting the jacket and the facemask, and its fit on your face. It is removable, washable, and now includes a sliding fast clip plus a hidden stash pocket for when the mask is not in use.

ZIP TECH®

Whether waist deep in the backcountry or trying to one-up yourself in the park, nothing lowers motivation faster than snow jammed down your pants and up the back of your jacket. Volcom has officially patented Zip Tech®, our originally designed and heavily imitated jacket-to-pant interface that allows you to zip the powder skirt of virtually any Volcom jacket to any Volcom pant, keeping snow out and heat in with no restriction of movement. Falling has never been more enjoyable.

RECCO® ADVANCED RESCUE SYSTEM

RECCO® is an avalanche rescue system utilized worldwide to rapidly locate avalanche burials. It is not a substitute for a transceiver, but does increase the chance of being found in time.

YKK® AQUAGUARD® ZIPPER

YKK® AquaGuard® VISLON® Zipper is a high performance water repellent zipper which enhances the style, function, and performance of your high quality garment. What we find so exciting about this new zipper is that you get a zipper that is water repellent and able to smoothly zip open and shut.

YOUTH GLOSSARY

YOUTH SAFE HOOD SYSTEM

Global safety regulations have created a long list of rules for Youth apparel to avoid accidental injuries. We have developed this "safe" hood to meet those standards. At the inside brim of the hood you will find an encased elastic panel. This will help to keep the hood on the head during riding while avoiding the dangling loops and cords that are no longer allowed.

HELMET COMPATIBLE HOOD

All of Volcom's Youth outerwear hoods are designed to be compatible to wear over a helmet.

GROW-TECH

Volcom's "GROW TECH" allows you to add length to your garment so you can enjoy your Volcom outerwear for a longer period of time by making these adjustments as you grow. (Applies to both jacket and pant).

YOUTH BOY FITS

The classic Volcom Youth jacket fit. Relaxed but not oversized with a straight hem.

A relaxed modern chino fit featuring a straight hem.

Modern Straight Pant: Extra narrow at the knee and slim through the thigh.
